DETAILED ACTION

This action is responsive to communication filed on December 18, 2006.

Response to Amendment

The examiner has acknowledged the amendment of claims 18 and 19.

Response to Arguments

Applicant's arguments, filed August 28, 2006, with respect to claims 14-19 have been fully considered and are persuasive.

Regarding the 101 rejection of claims 14, 18-19, claims 14, 18-19 are directed only to descriptive material and hence the claims are nonstatutory. Claims must recite a computer readable medium storing computer program. The medium is disclosed as including a propagated signal, which is not allowed under *35 USC § 101*. The suggested claim language would be "A ROM, or RAM, or magnetic disk storage storing a computer program".

Claim Objections

Claims 16-17 are objected to because of the following informalities: Claims 16-17 depends on claim 15, which is a cancelled claim. Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 2612

Claims 14, 18-19 are rejected under 35 U.S.C. 101 because descriptive materials are not capable of causing functional change in the computer. The description is not a physical thing, it is neither a computer components or statutory processes, as they are not 'acts' being performed. Claims 14-19 are directed only to descriptive material and hence the claims are nonstatutory.

Allowable Subject Matter

Claims 1-13 and 20-25 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
